THE PROBLEM

Job seekers were submitting the same generic resume to every role, resulting in low ATS scores and poor callback rates. Manually tailoring a resume for each job description took 30-60 minutes and required strong writing skills.

HOW IT WORKS

OUTPUT DELIVERED

Tailored Resume PDF

ATS-Optimised Copy

Keyword Alignment

7-Parameter Score

Job-specific Skills

Formatted PDF

Users paste their existing resume and a job description, the AI checks alignment across 7 parameters, rewrites the content to match, and delivers a formatted PDF in seconds. Callback rates improve dramatically with zero writing effort required.
